

TEF Intern User Manual — Knowledge Base Reference

Document type: User guide / How-to reference **Product / System:** TEFConnect Admin Portal **Module / Role:** TEF Intern **Audience:** Users signed in with the "TEF Intern" profile type **Source document version:** 1.0 **Prepared for:** Chatbot knowledge base ingestion

Overview

This document explains how a **TEF Intern** uses the **TEFConnect Admin Portal**. A TEF Intern reviews entrepreneur programme applications and pitching submissions that have been assigned to their account, scores those applications against review criteria, submits feedback, and — for pitching — can approve a submission or send it back for resubmission. A TEF Intern cannot manage other users, manage programmes, change platform settings, or reassign work; those are TEF Admin or Super Admin tasks. The TEF Intern account only ever shows items assigned to that intern.

Key topics covered: signing in and out, the TEF Intern navigation menu, the Application Dashboard, how to review and score an application, the Pitching Dashboard, how to review and approve a pitching submission, how to request resubmission, what a TEF Intern is not permitted to do, best-practice tips, a glossary of on-screen terms, and how to get help.

TEF Intern Role and Scope

A TEF Intern's work in the TEFConnect Admin Portal is limited to:

- Reviewing entrepreneur programme applications assigned to them
- Scoring those applications against defined review criteria
- Submitting review feedback
- Reviewing pitching submissions assigned to them
- Approving a pitching submission, or requesting resubmission when corrections are needed

A TEF Intern does **not** manage other users, manage programmes, or change platform settings. All work is limited to items assigned to the intern's own account — a TEF Intern cannot assign work to themselves or to others.

Signing In and Signing Out (TEF Intern)

To sign in as a TEF Intern:

1. Open the TEFConnect Admin Portal in a web browser.
2. On the login screen, set **Profile Type** to **TEF Intern**.
3. Enter your **email address** and **password**.
4. Select **Sign In**.

After signing in, you land on the **Application Dashboard**.

To **sign out**: open the Profile menu, select **Logout**, and confirm.

TEF Intern Navigation Menu

The TEF Intern menu contains only two items:

- **Application Dashboard** — home screen for application review counts and work
- **Pitching Dashboard** — home screen for pitching review work (this menu item only appears if pitching features are enabled for your organisation)

A TEF Intern does not see User Management, Programme Management, or other admin tools. If a TEF Intern tries to open a restricted area directly (e.g. via URL), the system redirects them back to their dashboard.

Application Dashboard (TEF Intern)

After logging in, the TEF Intern sees a welcome message and two summary cards:

- **Pending Applications** — applications waiting for this intern's review. Clicking this card opens the application list filtered to "Pending."
- **Reviewed Applications** — applications this intern has already completed. Clicking this card opens the application list filtered to "Reviewed."

If the summary counts fail to load, use the **Retry** option shown on screen.

How to Review and Score an Application (TEF Intern)

Step 1 — Open the application list. Reach it either by clicking a dashboard summary card, or by going to **Application Dashboard** and navigating to application management.

Step 2 — Filter the list. Use the status filter to narrow results:

- **Pending** — work still to do
- **Reviewed** — work already submitted
- **Rejected** — rejected applications (if shown in your list)

Use the search box and pagination controls to locate a specific application.

Step 3 — Open an application. Select the **View** action on a row to open the full application preview. Typical list columns include application ID, entrepreneur details, programme, status, and the intern's own score grade where available.

Step 4 — Score and submit the review.

1. Go to the **Review / Feedback** section of the application.
2. For each review criterion, enter a **score** (it must fall within the maximum allowed for that criterion) and add **remarks** if the form allows optional comments.
3. **Every criterion must be scored** before the review can be submitted.
4. Select **Submit** to complete the review.

Once submitted, the application moves from the intern's "Pending" list to their "Reviewed" list.

Pitching Dashboard (TEF Intern)

The Pitching Dashboard is used for pitching assignments, which are handled separately from standard applications. It only appears in the menu if pitching features are enabled for the organisation.

Summary cards on the Pitching Dashboard:

- **Pending Binds** — pitching items waiting for this intern's review. Opens the pending pitching list.
- **Resubmission Requested** — items sent back to the entrepreneur for corrections. Opens the resubmission list.
- **Reviewed Binds** — pitching reviews this intern has already completed. Opens the reviewed pitching list.

The pitching list shows Application ID, entrepreneur name, programme name, and a **View** action. Use search and pagination to find items.

How to Review a Pitching Submission (TEF Intern)

1. Open the item using **View**.
 2. Expand the relevant sections as needed:
 - Identity verification
 - Bank details
 - Business executive summary
 - Phase documents
 3. When the internal pitching phase is under this intern's review, they can either:
 - **Approve** the submission, or
 - **Request for Resubmission**
-

How to Request Resubmission on a Pitching Item (TEF Intern)

Use this process when documents or information submitted by the entrepreneur are incorrect or incomplete:

1. Select **Request for Resubmission**.
2. Enter a **resubmission deadline**.
3. Write a clear **remark** explaining exactly what must be corrected.
4. Select which **seed capital documents** need resubmission, if applicable.
5. Confirm the request.

Once confirmed, the entrepreneur is notified and must submit corrected materials before the deadline.

What a TEF Intern Cannot Do

- **Assign applications to themselves or others** — this is a TEF Admin / Super Admin task.
 - **Approve or reject applications at the admin level** — this is a TEF Admin task.
 - **Manage programmes, users, or sectors** — this is an admin task.
 - **Access enumerator or M&E (Monitoring & Evaluation) management screens** — this belongs to a different role.
 - **Configure pitching templates** — this is a Super Admin task.
-

Best-Practice Tips for TEF Interns

- **Read the full application before scoring** — context affects fair scoring.
 - **Use remarks to explain unusual scores** — admins rely on intern comments.
 - **Complete all criteria in one session where possible** — this avoids partial saves that could block submission.
 - **Be specific in resubmission remarks** — entrepreneurs need to know exactly what to fix.
 - **Check Pending Binds daily** — this prevents assignments from sitting past programme deadlines.
-

Glossary of On-Screen Terms (TEF Intern Portal)

- **Pending** — Assigned to the intern, not yet reviewed.
 - **Reviewed** — The intern has submitted their review.
 - **Pending Binds / Reviewed Binds** — Pitching assignment groups (pending = not yet reviewed, reviewed = completed).
 - **Resubmission** — The entrepreneur must upload corrected documents.
 - **Review criterion** — A scored question or rubric item on the review form.
 - **Intern score grade** — The summary grade produced from the intern's scoring.
-

Getting Help (TEF Intern)

A TEF Intern should contact their **TEF Admin** or supervisor if any of the following happen:

- No pending assignments appear, but work is expected.
- A review cannot be submitted (e.g. missing criteria scores or score errors).
- Clarification is needed on scoring guidelines.
- A reassignment is needed (only admins can reassign work — an intern cannot do this themselves).

Note: a TEF Intern's account only shows applications and pitching items assigned to them. An empty queue means there is currently no assigned work; a TEF Admin must assign new work before it will appear.

Frequently Asked Questions (TEF Intern)

Q: How do I sign in as a TEF Intern? A: On the TEFConnect Admin Portal login screen, set Profile Type to "TEF Intern," enter your email and password, and select Sign In. You'll land on the Application Dashboard.

Q: What can a TEF Intern do in the portal? A: Review entrepreneur applications and pitching submissions assigned to them, score applications against review criteria, submit feedback, and approve or request resubmission on pitching items.

Q: What can't a TEF Intern do? A: A TEF Intern cannot assign applications to themselves or others, approve/reject applications at the admin level, manage programmes/users/sectors, access enumerator or M&E screens, or configure pitching templates. These are admin or super-admin tasks.

Q: Why can't I submit my application review? A: All review criteria must be scored before a review can be submitted. Check for any criterion left blank or a score outside the allowed maximum.

Q: Why is my queue empty? A: A TEF Intern only sees applications and pitching items assigned to their account. An empty queue means no work is currently assigned — contact a TEF Admin to request new assignments.

Q: How do I request a resubmission from an entrepreneur? A: Open the pitching item, select "Request for Resubmission," enter a deadline, write a clear remark on what needs correcting, select the relevant seed capital documents if applicable, and confirm.

Q: I don't see the Pitching Dashboard — why? A: The Pitching Dashboard only appears if pitching features are enabled for your organisation.

Q: Can I reassign an application to another reviewer? A: No — only TEF Admins or Super Admins can reassign applications.

Q: What does "Pending Binds" mean? A: It refers to pitching items waiting for the intern's review, shown as a summary card on the Pitching Dashboard.

Q: How do I sign out? A: Open the Profile menu, select Logout, and confirm.
